12 MONTHS OF SUCCESSFUL IMPLEMENTATION

Since its launch in May 2023, the ENVET project has set a new standard in the professional development of VET educators. Over the past year, partner organisations have worked diligently to achieve significant milestones, which we are now proud to share:

- **Innovative methodology** for work-based learning in a digital environment.
- **Best practices** focused on the professional development of VET educators.
- **Clear guidelines** for the essential skills and competences of VET educators.
- **E-learning platform** designed to facilitate continuous training.
- **6 training modules** specifically developed for VET educators.

Key Project Achievements So Far:

- Compilation of best practices that drive professional development in the VET sector.
- Development of detailed guidelines for the key skills and competences of educators.
- Implementation of an advanced methodology for work-based learning, optimised for digital environments.
- Launch of an accessible and effective e-learning platform.
- Creation of 6 training modules covering the most critical areas for VET educators.;
- Preparation of the piloting of the training program at local level.

Next Steps

In the coming months, all partner organisations will prepare for the pilot phase of the training programme. This process will include:

- Dissemination of the event among VET educators
- Application procedure
- Logistical organization of the event

E-LEARNING PLATFORM

Project team:

- DOMSPAIN - Spain (www.domspain.eu), Project coordinator
- Law and Psychology - Bulgaria (<https://lawandpsychology-bg.com>)
Project partner
- C.E.S. Academy - North Macedonia (www.ces.mk), Project partner
