FINAL PROJECT DEVELOPMENTS**Final Transnational Partner Meeting in Skopje, North Macedonia**

On **18 October**, we held our final Transnational Partner Meeting (TPM) in Skopje, Republic of North Macedonia. This meeting served as a pivotal point to review project achievements, discuss final tasks, and plan for the sustainability and exploitation of the results. Hosted by **CES Academy**, the event allowed us to evaluate project outcomes and establish a strategy to ensure lasting impact through effective dissemination.

**Online Course Piloting Success**

The piloting phase of our online course has been completed successfully, with participation across all partner countries. Participants provided valuable feedback, which has been instrumental in refining the course content. We extend our gratitude to all VET educators and stakeholders who contributed to this phase.

Project Completion and Available Resources

We are excited to announce the completion of all planned project activities, including the full piloting of the online course. All project materials, including training modules, best practices, and guidelines, are now available on our website in English, Bulgarian, Spanish, and Macedonian. This platform is open to all educators, stakeholders, and anyone interested in enhancing their vocational training skills.

Upcoming Project Promotion Events

As we move into the project's final stage, each partner country will host a series of project promotion events. These events aim to raise awareness of the resources and tools developed through the ENVET project and offer VET educators insights into innovative digital and work-based learning methodologies. We invite everyone interested to join these events and explore the benefits of the ENVET programme.
